INDIAN INSTITUTE OF SCIENCE
Bangalore 560012 INDIA

Prof. Nugghalli Narayana Memorial Lecture - Speakers

https://odaa.iisc.ac.in/?page_id=3003

Sl. No.	Name of the Speaker	Lecture Delivered Date	Title of the Lecture
1	Joseph P. Mascarenhas State Univ of New York	23.08.1988	The Expression and Isolation of Pollen specific genes
2	Prof. Suresh Subramani Univ. of California	30.08.1990	The sorting of Proteins into Peroxisomes
3	Prof. Arne Holmgren Institution for Medicinsk Kemi Stockholm, Sweden	03.10.1991	Thioredoxin and glutaredoxin Structure and Function
4	Prof. Harry Taber Newyork State Dept. of Health Empire State Plaza , Albany	26.08.1992	Molecular Genetics of Bacillus Respiratory Chains
5	Dr. Sandip K. Basu National Institute of Immunology, New Delhi	15.09.1993	Towards a New Pharmacology Receptor - Mediated Targeting of Drugs
6	Prof. Ramareddy Guntaka Univ. of Missouri-Columbia, USA	25.01.1996	Rous sarcoma virus - A Paradigm for Transcriptional Regulation and oncogenesis
7	Prof. Govindjee Univ.of Illinois, USA	26.02.1997	Agricultural Biotechnology Turning Fledgling Science into Commercial Products
8	Dr. Dilip Saha Ivionss University, St Louis, USA.	06.03.1998	Agricultural Biotechnology: Turning Fledgling Science into Commercial Products
9	Prof.S.C. Maheshwari International Centre for Genetic Engineering and Biotechnology New Delhi	26.02.1999	Light-Activated Protein Kinases Key Regulators of Plant Development
10	Prof. Man Mohan Johri Tata Institute of Fundamental Research , Mumbai	26.04.2001	Regulation of Development and and Differentiation in Plants

11	Dr. Asis Datta National Centre for Plant Genome Research JNU Campus, New Delhi	27.10.2003	Nutritional Genomics : Chasing the Dream
12	Prof. Sudhir Kumar Sopory, ICGEB, New Delh.	8.07.2005	Salinity Tolerance in Plants: Molecular understanding and Applications
13	Prof. Siddhartha Roy IICB, Kolkata	21.02.2007	Engineering peptides for DNA and Protein Recognition: A Lesson from Prokaryotic Repressors
14	Prof. Deepak Pental University of Delhi, Delhi	26.08.2008	“Plant Sciences: The Possible and the Actual”
15	Prof. K. Veluthambi MKU, Madurai	05.03.2010	Lessons learnt on gene silencing from inverted T-DNA repeats in Transgenic plants”
16	Prof. M. R. S. Rao JNCASR, Bangalore	03.05.2012	Genomic approaches towards understanding the biology of Giloblastoma multiforme
17	Prof. A. S. Raghavendra Univ. of Hyderabad, Hyderabad	14.02.2013	“Optimization of photosynthetic Carbon Assimilation Depends on Dynamic Interactions of Chloroplasts with Mitochondria, Peroxisomes and cytoplasm”
18	Prof. Tapas Kumar Kundu CDRI, Lucknow	11.11.2019	“ Epigenetics, Life beyond your Genes: Implications in Disease and Therapeutics”
19	Dr. Rajan Sankaranarayanan Cellular and Molecular Biology (CCMB), Hyderabad .	22.12.2021	“Chiral Proofreading: From ‘Variation in common theme’ to ‘eukaryotic evolution’! ”
